<b>Information Sought :</b>	<p>Dear Department of Revenue,</p> <p>I am Rajeev Sinha advisor at Multihaul Pvt Ltd, spent 18 years in driving logistics transformation, operations and new age technology adoption with corporates like Reliance Industries, GlaxoSmithKline Pharmaceuticals, Wipro Technologies. My expertise is in reducing logistics cost and reducing wastage (drive lean) in supply chain.</p> <p>I am requesting this on behalf of Multihaul Pvt Ltd, a startup focused on building a multimodal marketplace to drive modal shift from road to rail and inland waterways in India. Our objective is to significantly reduce logistics costs as a percentage of GDP, aligning with the nations sustainable goals as outlined in various Niti Ayogs report.</p> <p>As we strive to achieve this ambitious goal, we understand the critical importance of gaining insights into the core commodities moving across various lanes within the country. To design and propose commodity-appropriate multimodal solutions, it is imperative for us to access detailed data on goods movement.</p> <p>We kindly request the Department of Revenue to <u>provide us with last financial years e-way bill data which has required necessary details of goods movement within the country.</u> This information will enable us to analyze the current state of logistics and identify key areas where modal shift from road to rail and inland waterways can yield significant benefits to industries, the government, and the nation as a whole.</p> <p>By studying the patterns, volumes, and routes of commodities being transported, we can identify the most suitable corridors for multimodal transportation. This will allow us to propose innovative and efficient solutions that optimize cost, reduce environmental impact, and enhance overall logistics performance.</p> <p>Our proposed multimodal marketplace aims to provide seamless integration of road,</p>		

rail, and inland waterway transportation modes, allowing businesses to choose the most appropriate and sustainable option for their cargo. Through this platform, we aim to promote and facilitate the adoption of alternative modes of transport, ultimately leading to a substantial reduction in logistics costs as a percentage of GDP.

We assure you that any data provided will be treated with the utmost confidentiality and used solely for the purpose of developing multimodal solutions. Our focus is on collaboration and alignment with the governments initiatives to drive sustainable growth, enhance the efficiency of logistics operations, and contribute to the overall development of the nation.

We look forward to your support and cooperation in accessing the goods movement details that will empower Multihaul Pvt Ltd to create an impactful multimodal marketplace and contribute to the nations economic and environmental sustainability goals.

Thank you for considering our request. We are more than willing to provide any additional information or clarification as required.

Sincerely,

Rajeev Sinha  
advisor  
Multihaul Pvt Ltd
